PHOTOELECTRIC BEAM SENSOR
(INTELLIGENT QUAD SERIES)
PB-IN-50HF : Outdoor 165 ft. (50m)
PB-IN-100HF : Outdoor 330 ft. (100m)
PB-IN-200HF : Outdoor 660 ft. (200m)

The TAKEX intelligent "QUAD" photoelectric beam is especially designed for outdoor protection. Unique Quad beams are synchronized to work together to reinforce the range and stability in severe weather conditions. The PB-IN-HF series beams are equipped with many features which provide a wide choice of field selectable options. These options result in considerable flexibility for a variety of application requirements.

4 SYNCHRONIZED HIGH POWER INFRARED [PATENTED]
* 4 beams are "and-gated", which helps to prevent false alarms from falling leaves and small animals.
* The active infrared transmission is exceptionally strong with a maximum arrival distance ten times greater than the specified protection distance.
* External light compensation circuit provides excellent tolerance against sun light, automobile head lights, fluorescent light or mercury light.

FOUR FREQUENCIES SELECTIONS
4 separate choices of frequency avoids cross-talk in stacked or long linear installations.

BEAM TRANSMISSION STRENGTH SELECTION
2 levels of beam transmission strength which can be set to suit the protection distance.

EASY BEAM ALIGNMENT
* Audible signal for alignment [Utility model]
An alignment tone aids in quick set-up to beams. The tone becomes maximum at peak of beam level.
* Sensitivity attenuation LED
Lights when beam level is attenuated, which shows low sensitivity.
* Monitor jack output

AUTO-GAIN LOCK
Optimal sensitivity gain is automatically set at any coverage distance up to the maximum protection distance. Aut-Gain lock is easily confirmed by sound check.

PROGRAMMED AGC
Sensitivity is automatically increased in bad weather to contend with fog, heavy rain, frost or snow.

ALARM MEMORY
Alarm memory LED located on receiver can be automatically reset (flickering 5 min. after an alarm and auto-reset 55 min. after that) or manually controlled.

PROTECTION AGAINST FROST/DEW
As a special hood is attached on sensor cover, beam protection continues without interruption even when the cover is screened by frost or dew.

ENVIRONMENTAL MODULE BUILT-IN
Environmental trouble signal is sent when beam reception level is reduced below an acceptable level.
* Wide adjustment (horizontally ± 90°, vertically ± 10°)
* Tamper output
* Polycarbonate cover excellent at antishock
* Optional accessories

**TERMINAL ARRANGEMENT**

**OPTIONAL**

- Pole cover: BP-200F (2pcs/set)
- Housing case: KH-120F (1pc.)
- Flush mount attachment: BU-50F (1pc.)
- Heater (2pcs/set): HTF-100 (100VAC-200mA set)
- HTF-24 (24VDC-860mA set) (Temperature control switch)
- Pole side cover: BS-50F (1pc.)

**EXTERNAL DIMENSIONS** (Unit: inch (mm))

**SPECIFICATIONS**

- **Product name**: Photoelectric beam sensor
- **Model**: PB-IN-50HF, PB-IN-100HF, PB-IN-200HF
- **Detection system**: Near infrared beam interruption system
- **Infrared beam**: Double modulation pulsed beams by LED
- **Protection distance**: Outdoor 165’ (50m) or less
- **Max. arrival distance**: Outdoor 660’ (200m) or less
- **Response time**: 50msec, to 700msec, variable (Standard: 50msec.)
- **Power supply**: 12V to 30V DC (non-polarity)
- **Current consumption**: 60mA or less at protection (max. 95mA or less)
- **Alarm output**: Dry contact relay output 1c
- **Environmental output**: 3A or less at protection (max. 105mA or less)
- **Tamper output**: Dry contact relay: 1b
- **Alarm LED**: Red LED (receiver) lights when an alarm is initiated
- **Sensitivity attenuation LED**: Red LED (receiver) lights when beam reception is attenuated
- **Functions**: Modulated beam frequency selection, Tone indicator, Environmental module, Beam power selection, Alarm memory, Indication, Programmed AGC, Auto-gain lock function, Monitor jack.

**Please Note**: This sensor is designed to detect intrusion and to initiate an alarm; it is not a burglary or a crime preventing device. TAKEX is not responsible for damage, injury or losses caused by accident, theft, Acts of God (including inductive surge by lighting), abuse, misuse, abnormal usage, faulty installation or improper maintenance.
