

# SENSING THE UNSEEN

Protecting what matters since 1959, TAKEX has built a legacy of excellence in precision sensing technologies. Our specialty? Active Infrared Beams for Perimeter Protection and Outdoor PIR for CCTV activation and Intruder Detection.

### TWIN BEAMS

Featuring our patented 'double modulation' technology for unsurpassed immunity to sunlight and artificial light sources, Twin Beams are ideal for protecting windows, doors, fence lines, entrances, and driveways.

	PB-30TK	PB-60TK	PB-100TK
1	up to 30m	up to 60m	up to 100m
	<ul> <li>2 x synchronised high</li> <li>double modulation fo</li> <li>auto-gain control (AG</li> <li>50,000 lux sunlight in</li> <li>IP55 housing</li> </ul>	r unsurpassed light imm C)	unity
	PB-20TE	PB-40TE	PB-60TE

#### as PB-30TK/60TK/100TK, plus

· 4 selectable beam channels to prevent crosstalk

· vivid internal body stickers aid beam alignment procedure

INTRODUCING **PB-60TX 2 DISTANCE SETTINGS 53% MORE ENERGY EFFICIENT REAL-TIME ALARM OUTPUT** 

**NEW PRODUCT** 

- · 2 selectable operation ranges: 30/60m
- selectable alarm output modes (standard/real time) · advanced sound check for easy alignment
- · insect-proof cable entry bushing

### **OUAD BEAMS**

The professional choice in outdoor protection, our Quad Beam detectors synchronise sixteen beam paths for maxim m stability in severe weather conditions, perfect for long range perimeter intruder detection.

- · double modulation for unsurpassed light immunity
- auto-gain control (AGC)
- 50,000 lux sunlight immunity
- IP55 housing

#### as PB-50FA/100FA/200FA, plus:

- · 4 selectable beam channels to prevent crosstalk
- · environmental monitoring circuit · vivid internal body stickers aid beam alignment procedure
- PB-IN-100AT up to 100m KH

### as PB-IN-100HFA, plus:

- · anti-crawl beam for high-security applications
- · independent activation of upper or lower beams
- dual response time system

PXB-50HF	PXB-100HF	PXB-200HF
up to 50m	up to 100m	up to 200m

### as PB-IN-50HFA/100HFA/200HFA. plus:

- · increased beam separation minimizes nuisance alarms · vivid internal color aids beam alignment procedure
- · lightning and surge protection up to 15kV
- · ±90° horizontal ±20° vertical adjustable sensor heads
- IP65 housing

### **BATTERY BEAMS**

Designed for compatibility with leading wireless systems, our Battery Beams are ideal for rapid deployment in creating temporary or permanent secure perimeter intruder systems

#### TXF-20TDM up to 20m

- · easy to install, no cables required
- · stack multiple units without crosstalk
- · long-lasting battery life (up to 3 years) · high sunlight immunity
- · compatible with your preferred wireless panel manufacturer IP55 weather resistance

up to 100m

#### as TXF-20TDM, plus:

- · guad beam detection
- 4 selectable operation ranges: 25/50/75/100m
- IP65 housing

### **BEAM TOWER ENCLOSURES**

For additional security, or to disguise the number and position of beams from observers, our Beam Towers comprise of attractive but rugged floor or wall mounted units, with single and double-sided variants.

TAS

sinale sided

### TA series Beam Towers for use with KH Beams available in 1m, 1.5m, 2m, and 3m heights (TA×100/150/200/300) · anodized aluminium column tamper protected lid to prevent unauthorised interference · vandal resistant polycarbonate covers KH Beams are designed for use in TA series Beam Tower

TAD

double sided

TAW

wall mounted

# PRE-WIRED TOWERS

2m single or double-sided beam towers pre-wired and installed with heaters, thermostats, tamper switches, and mounting brackets for beams - simply mount your chosen KH series quad beams and align to create robust perimeter intruder systems with ease.

TA-2PW SERIES	TA-2PW3 SERIES
2 beams per side	3 beams per side

#### as TAS/TAD, plus:

- available in 2m height, single-sided (180°) or double-sided (360°)
- · pre-wired and ready to install
- · includes heaters, thermostat, tamper switch, and beam mounts
- compatible with KH series Beams

### **MINIATURE BEAMS**

For covert/prestige applications including ATMs, motor driven shutters, windows, and corridors.

#### PB-10NS up to 10m indoor

- · miniaturised control box for easy installation
- · sensor cord can be cut to length as required
- · supplied with flush mounting plates for sensor heads

### ATTENTION SENSORS

#### Provide messages, protect doors, deter intruders, or trigger warnings.

AV-100E	PV-12E
N/O input to trigger	integrated 12m PIR

- · record a message (up to 12 secs.) using built-in microphone
- omni-directional bracket
  - · memory back-up for 20 days without power horn speaker type 100dB/1m (max)

### **REFLECTIVE BEAMS**

For applications where a beam-break is desirable but running cable to both ends is impractical. Ideal for short- distance monitoring of entrances and exits, corridors, staircases, gateways, and driveways.

PR-5B
up to 5m indoor
<ul> <li>cable only to one end</li> <li>compact design for u</li> <li>for indoor use</li> </ul>

### PR-11B up to 11m outdoor

#### as PR-5B, plus:

- · beam direction can be rotated a full 180 degrees
- · for indoor (up to 15m) and outdoor (up to 11m) use
- IP55 housing

### The PR-30BE uses Time of Flight technology to measure both light reception level and timing

### PR-30BE up to 30m outdoor

### as PR-11B, plus:

- · Time of Flight technology to determine detecting distance
- · measures light reception & timing for improved accuracy
- · for indoor (up to 40m) and outdoor (up to 30m) use · environmental monitoring circuit

### **FLAME SENSORS**

### WHAT IF YOU COULD BE ALERTED TO A FIRE RISK **BEFORE IT BECOMES A BLAZE?**

Use with existing intruder/CCTV systems to bring immediate attention to the use of lighters, matches, and other open flames.

FS-1000E	FS-2000E	FS-5000E
built-in sounder	built-in sounder	indoor/outdoor
• up to 10m detection	of 7cm flame	

- adjustable detection area (FS-2000E only)
- battery or DC operation (FS-1000E only)
- omni-directional bracket for detection area adjustment (FS-5000E only)

### **FP-2500E** integrated 10m PIR

- combination UV flame sensor + PIR with pet immunity
- up to 10m detection of 7cm flame
- AND/OR detection modes · dual output with forced alarm during sustained flame

### as FP-2500E, plus:

- with integrated 15m wide angle PIR · omni-directional bracket
- for indoor and outdoor use

### **MULTI-PATTERN PIR**

Choose between wide-angle, curtain, or long range detection, Install vertically for standard detection or horizontally as a door senso

**MS-100E** up to 20m

- 10m Wide Angle / 10m Curtain / 20m Long Range
- · 2 lenses for up to 4 different detection patterns
- · 180° rotating sensor head for vertical or horizontal mount
- · for indoor and outdoor use

# **DUAL-ZONE PIR**

Our Dual-Zone PIR's combine a horizontal and downward curtain requiring simultaneous activation for alarm. With up to 12m x 180° range these sensors are perfect for use in both domestic & industrial applications.

> · dual-zone detection system · 2-12m coverage

MS-12TE up to 12m x 90°

IP54 housing

**TX-114SR** 

up to 12m x 90°

as MS-12TE/FE. plus:

OMS-12FE up to 12m x 180°

 3-12m coverage fixed sensor heads MS-12FE

up to 12m x 180°

**TX-114TR** 

up to 12m x 90°

**TX-114FR** 

up to 12m x 180°

### available in Black & White

#### · powered by 3V to 9VDC alkaline or lithium battery · compatible with numerous wireless transmitter units

· dual-zone detection system

· front and back tampers IP54 housing

back box with back-tamper (TX-114TR/FR only)

· rotating sensor heads (±90° horizontal adjustment) · AND/OR detection modes (MS-12FE only)

dual-zone detection system (+ microwave, MX-12FAMD only)

expose any attempt to defeat the sensor by obstruction.

MX-12FAM includes a sophisticated anti-masking system designed to

MX-12FAMD up to 12m x 180°

· 2-12m coverage · dual alarm signal outputs

MX-12FAM

up to 12m x 180°

- · anti-masking technology with near-lens awareness
- · front and back tampers
- durable area masks stored conveniently in-device

# **HIGH-MOUNT PIR**

The high-performance PIR-T sensor family offers the ultimate in detection versatility. Precision triple mirror optics and intelligent signal processing ensure accurate detection from a mounting height of 2m to 6m.

- · 4 selectable operation modes:
- · high-performance triple mirror optical system
- · precise detection area adjustment using on-mirror LED's

### **INDOOR PIR**

The PA-6800 series ceiling mount PIR sensors combine a discreet compact appearance with outstanding performance at a low price. The sensor can be snapped in and out of its base unit for easy installation.

PA-6805E	PA-6810E
4m spot	15m x 360°
PA-6812E	PA-6820E

- ceiling mount design
- · 2m to 4.9m installation height
- · detachable base unit with snap-in-out sensor design
- · pulse count and sensitivity adjustable
- · geared mirror array for precise area definition (PA-6812E/6820E)
- · PA-6810E and PA-6812E also available in black (BL)

#### Twin Dual-Element mirror optics virtually eliminate false alarms for rock-solid performance in even the toughest of environments.

#### as PA-6812E, plus:

- · unique twin mirror and two twin pyro optics
- · accurately detects human intrusion whilst rejecting small animals
- · up to 6m installation height

IP55 housing
